

At this time, the Foundation is run 100% by volunteers. They are the Foundation's most valuable asset to help save pet lives. Volunteering of professional services or individual time to work on Foundation programs and fundraising events is welcome.

We welcome volunteers with all skills and interests. You must be at least 18 years old to volunteer. We want to make your experience fulfilling and we appreciate feedback on how we can deliver on that goal. You will be part of a team dedicated to saving lives of pets across the United States.

Thank you in advance for volunteering your talents and skills to SaveU.S.Pets Foundation. We look forward to meeting you.

Susan Lemme

Managing Director

Board of Trustees
